DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of Group I in the reply filed on January 3, 2007 is acknowledged. The traversal is on the ground that groups I-II are inter-related (i.e., part of one and the same invention), and thus, would not be unduly burdensome. This is not found persuasive because Groups I-II are separate and patentably distinct because there is no patentable co-action among them. For example when R⁴ is a

(c-1)

(c-2)

moiety or when R⁴ is a moiety, a reference anticipating one will not render the other obvious. Hence, Applicant's inventions are distinct and have acquired a separate status in the art due to their recognized divergent subject matter and different classification. Additionally, because each group has different subclasses, it would constitute a burden on the Examiner to search all subclasses. Further, different fields of search would be required in the non-patent literature. Thus, a search of the two groups would impose an undue burden upon the Examiner. Therefore, the restriction for examination purposes as indicated is proper. The requirement is still deemed proper and is therefore made FINAL.

Group II is withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim.

Applicant reserved the right to file a divisional application to the non-elected subject matter.

Applicant is entitled to have the method and process claims rejoined under M.P.E.P. § 821.04, since the compounds and pharmaceutical composition claims of Group I are allowable. An amendment, which results in the method and process claims being commensurate in scope with the allowed claims, will be welcomed.

An action on the merits on claims 11-15 is contained herein.

Conclusion

This application is in condition for allowance except for the presence of claims 11-15 directed to an invention non-elected with traverse in the reply filed on January 23, 2007. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.

The prior art does not teach any of the tricyclic quinazoline compounds substituted in the manner claimed by the Applicant. Thus, the compounds in Group I were neither found to be obvious nor anticipated by the prior art of record. The prior art does not teach or suggest the presently claimed compound.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
